

DT305 cash drawer trigger is designed to provide Ethernet (with PoE option) or Wireless interfacing with a cash drawer.

DT305 allows the cash drawer to be connected directly when no printer is used in the POS system.

It creates a one-to-one connection between cash drawer and POS device such as PC, tablet or mobile phone.

Features

- Enables use of cash drawer without a printer.
- Works with devices using iOS®, Android™ & Windows®
- Accepts RTS/DTR signal trigger control.
- Accepts most popular POS printer trigger commands such as EPSON®, Star® and Citizen® printers.

Applications

- Mobile POS (mPOS)
- Retail Shop
- Restaurant
- Food Court / Canteen

Ordering Information

- DT305-00 - Ethernet interface w/o PoE
- DT305-10 - Ethernet interface with PoE
- DT305-20 - BLE (Bluetooth low energy) interface
- DT305-30 - WiFi interface
- DT305-40 - BT interface

Model No.	DT305
Interface	Ethernet with or without PoE, BLE, WiFi, BT
Power	5-12V, 500mA - via USB connector
Audio/ Visual Indication	2 x LED 1 x Beeper
Config Software	Web-based
Dimensions	85 x 56 x 25 (LxWxD mm)
Environment	Operating Temperature -0°C ~ +55°C; Storage Temperature -10°C ~ +55°C; Humidity 10~90% relative

Note: Specification is subject to change without notice.
