

The Promag MF5 is a tiny MIFARE® card read / write module, which is designed for applications utilising 13.56Mhz technology.

By using the MF5 reader / writer (module) and encoder software, customers can implement their own applications and define security keys themselves.

Features

- Fast data transfer
- High data integrity
- True anti-collision
- Development kit available

Available Options

MF5:

Read / write module only

MF5 + Start Kit:

Development kit with read / write software.

Frequency	13.56MHz ISO 14443 A, MIFARE
Read type	Read / Write
Interface	RS232
Baud Rate	19200, No Parity, 8 data bits, 1 stop bit
RF Distance	Depends on antenna
Power Supply	DC 5V, 100mA
Dimensions	36 x 26 x 11mm (W x H x D)
Weight	10g
Temperature	-10°C ~ +60°C
